

## **Angles - Estimating - Reversed**

1	Find the angle that is closest to the given number of degrees	A	В	С	2	Find the angle that is closest to the given number of degrees	A	В	С
	90°	D	E			75°	D	E	
3	Find the angle that is closest to the given number of degrees	A	В	С	4	Find the angle that is closest to the given number of degrees	A /	В	С
	15°	D				60°	D		
5	Find the angle that is closest to the given number of degrees	A	В	C	6	Find the angle that is closest to the given number of degrees	A	В	C
	30°	D				45°	D
