

## **Angles - Estimating - Reversed**

1	Find the angle that is closest to the given number of degrees	A	В	C	2	Find the angle that is closest to the given number of degrees	A	В	С
	90°	D	E			75°	D	E	
3	Find the angle that is closest to the given number of degrees	A	В	C	4	Find the angle that is closest to the given number of degrees	A	В	С
	30°	D				60°	D		
5	Find the angle that is closest to the given number of degrees	A	В	С	6	Find the angle that is closest to the given number of degrees	A	В	C
	180°	D	E	F		165°	D	E	F
7	Find the angle that is closest to the given number of degrees	A	В	С	8	Find the angle that is closest to the given number of degrees	A /	В	C
	105°	D	E	F		15°	D
