

## Area of a Parallelogram - Equivalent Rectangle Equation

**1**

What is the area equation for the equivalent rectangle?

A  $3 \times 10$       B  $3 \times 6$

C  $10 \times 6$

**2**

What is the area equation for the equivalent rectangle?

A  $9 \times 2$       B  $4 \times 2$

C  $9 \times 6$

**3**

What is the area equation for the equivalent rectangle?

A  $7 \times 3$       B  $7 \times 4$

C  $6 \times 3$

**4**

What is the area equation for the equivalent rectangle?

A  $3 \times 3$       B  $3 \times 5$

C  $6 \times 5$

**5**

What is the area equation for the equivalent rectangle?

A  $6 \times 6$       B  $0 \times 6$

C  $2 \times 6$

**6**

What is the area equation for the equivalent rectangle?

A  $8 \times 6$       B  $0 \times 6$

C  $6 \times 6$

**7**

What is the area equation for the equivalent rectangle?

A  $6 \times 8$       B  $6 \times 2$

C  $6 \times 11$

**8**

What is the area equation for the equivalent rectangle?

A  $7 \times 8$       B  $7 \times 7$
