

Counting in Groups - Picture and Count (Specific Image)

1 Each ant has 6 legs. How many legs would there be on 5 ants?

$\times 5$

A	B	C
33	26	30
D	E	F
32	28	27

2 Each ant has 6 legs. How many legs would there be on 4 ants?

$\times 4$

A	B	C
24	21	28
D		
26		

3 Each bee has 6 legs. How many legs would there be on 7 bees?

$\times 7$

A	B	C
45	42	37
D	E	
40	38	

4 Each bee has 6 legs. How many legs would there be on 3 bees?

$\times 3$

A	B	C
13	14	15
D		
18		

5 Each ant has 6 legs. How many legs would there be on 9 ants?

$\times 9$

A	B	C
54	57	51
D	E	
56	50	

6 Each bee has 6 legs. How many legs would there be on 2 bees?

$\times 2$

A	B	C
10	9	12
D		
16		

7 Each ant has 6 legs. How many legs would there be on 7 ants?

$\times 7$

A	B	C
45	39	42
D	E	F
44	46	40

8 Each ant has 6 legs. How many legs would there be on 2 ants?

$\times 2$

A	B	C
7	9	16
D	E	F
15	14	12
