

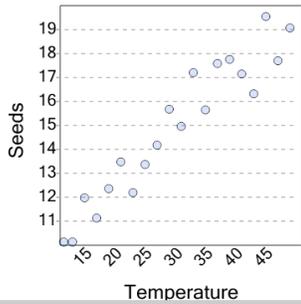

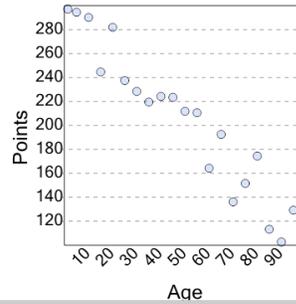

Graphing - Scatter Plot (Linear) - Graph to Correlation Direction and Strength

1 What is the correlation direction and strength on this scatter plot?

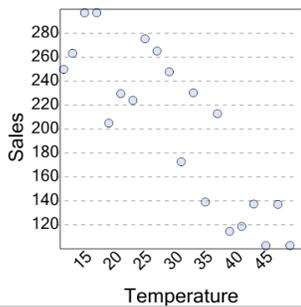

- A medium positive correlation
- B no correlation
- C medium negative correlation
- D weak negative correlation

2 What is the correlation direction and strength on this scatter plot?

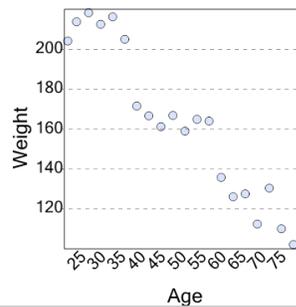

- A no correlation
- B strong positive correlation
- C medium negative correlation
- D weak positive correlation
- E medium positive correlation

3 What is the correlation direction and strength on this scatter plot?

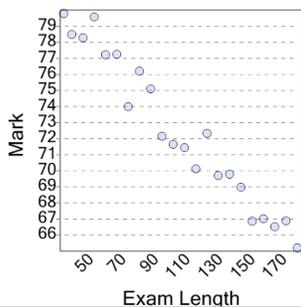

- A strong negative correlation
- B strong positive correlation
- C weak negative correlation
- D weak positive correlation
- E medium positive correlation

4 What is the correlation direction and strength on this scatter plot?

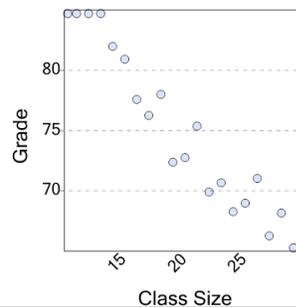

- A weak positive correlation
- B no correlation
- C strong positive correlation
- D medium negative correlation
- E medium positive correlation

5 What is the correlation direction and strength on this scatter plot?

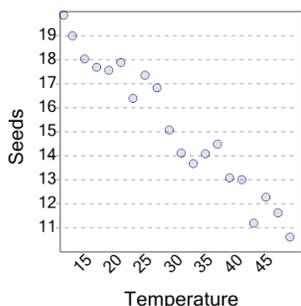

- A no correlation
- B weak positive correlation
- C medium negative correlation
- D strong positive correlation

6 What is the correlation direction and strength on this scatter plot?

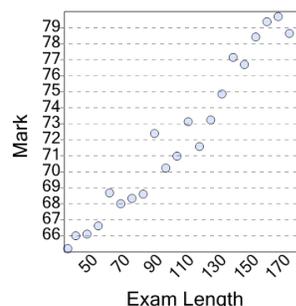

- A medium negative correlation
- B weak positive correlation
- C strong positive correlation
- D no correlation
- E medium positive correlation

7 What is the correlation direction and strength on this scatter plot?

- A strong negative correlation
- B weak negative correlation
- C weak positive correlation
- D strong positive correlation

8 What is the correlation direction and strength on this scatter plot?

- A medium positive correlation
- B weak negative correlation
- C medium negative correlation
- D no correlation
