

Graphing - Scatter Plot (Linear) - R Value to Correlation Direction and Strength

1 What type of correlation does this R value indicate? 0.8	A strong negative correlation B weak negative correlation C weak positive correlation D medium negative correlation E strong positive correlation	2 What type of correlation does this R value indicate? 0.5	A weak negative correlation B medium negative correlation C strong negative correlation D medium positive correlation E no correlation
3 What type of correlation does this R value indicate? -0.8	A no correlation B weak positive correlation C strong positive correlation D medium positive correlation E strong negative correlation	4 What type of correlation does this R value indicate? 0	A strong negative correlation B medium negative correlation C medium positive correlation D strong positive correlation E no correlation
5 What type of correlation does this R value indicate? 0.3	A strong negative correlation B strong positive correlation C weak negative correlation D weak positive correlation E medium negative correlation	6 What type of correlation does this R value indicate? -0.3	A strong positive correlation B weak positive correlation C medium positive correlation D weak negative correlation E strong negative correlation
7 What type of correlation does this R value indicate? -0.5	A medium positive correlation B medium negative correlation C no correlation D strong positive correlation
