

Repeating Decimals Concept - Bar Notation to Common Fraction

1

 $0.1\overline{6}$

What common fraction is equivalent to this decimal?

- | | | | |
|---|---------------|---|---------------|
| A | $\frac{1}{6}$ | B | $\frac{5}{6}$ |
|---|---------------|---|---------------|

2

 $0.\overline{3}$

What common fraction is equivalent to this decimal?

- | | | | |
|---|---------------|---|---------------|
| A | $\frac{5}{6}$ | B | $\frac{1}{3}$ |
|---|---------------|---|---------------|

3

 $0.\overline{6}$

What common fraction is equivalent to this decimal?

- | | | | |
|---|---------------|---|---------------|
| A | $\frac{2}{3}$ | B | $\frac{2}{6}$ |
|---|---------------|---|---------------|

4

 $0.8\overline{3}$

What common fraction is equivalent to this decimal?

- | | | | |
|---|---------------|---|---------------|
| A | $\frac{5}{6}$ | B | $\frac{2}{6}$ |
|---|---------------|---|---------------|
