

Repeating Decimals Concept - Decimal to Bar Notation

1

Which answer represents this repeating decimal correctly?

0.888

A $0.\overline{83}$ B $0.\overline{8}$

2

Which answer represents this repeating decimal correctly?

0.444

A $4.\overline{4}$ B $0.\overline{4}$

3

Which answer represents this repeating decimal correctly?

0.999

A $9.\overline{9}$ B $0.\overline{9}$

4

Which answer represents this repeating decimal correctly?

0.111

A $1.\overline{1}$ B $0.\overline{1}$

5

Which answer represents this repeating decimal correctly?

0.777

A $0.\overline{7}$ B $7.\overline{7}$

6

Which answer represents this repeating decimal correctly?

0.555

A $0.\overline{53}$ B $0.\overline{5}$

7

Which answer represents this repeating decimal correctly?

0.666

A $0.\overline{6}$ B $6.\overline{6}$

8

Which answer represents this repeating decimal correctly?

0.333

A $0.\overline{36}$ B $0.\overline{3}$
