

Digit Solving - Long Division - One Step, With Remainder - Identify Divisor

<p>1 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 79} \\ \underline{72} \\ 7 \end{array}$	<p>A</p> <p>1</p>	<p>B</p> <p>13</p>	<p>C</p> <p>5</p>	<p>2 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 22} \\ \underline{20} \\ 2 \end{array}$	<p>A</p> <p>11</p>	<p>B</p> <p>13</p>	<p>C</p> <p>0</p>
<p>3 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 13} \\ \underline{12} \\ 1 \end{array}$	<p>A</p> <p>6</p>	<p>B</p> <p>10</p>	<p>C</p> <p>12</p>	<p>4 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 66} \\ \underline{63} \\ 3 \end{array}$	<p>A</p> <p>2</p>	<p>B</p> <p>1</p>	<p>C</p> <p>11</p>
<p>5 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 31} \\ \underline{30} \\ 1 \end{array}$	<p>A</p> <p>5</p>	<p>B</p> <p>3</p>	<p>C</p> <p>0</p>	<p>6 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 39} \\ \underline{36} \\ 3 \end{array}$	<p>A</p> <p>10</p>	<p>B</p> <p>1</p>	<p>C</p> <p>6</p>
<p>7 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 28} \\ \underline{27} \\ 1 \end{array}$	<p>A</p> <p>1</p>	<p>B</p> <p>4</p>	<p>C</p> <p>2</p>	<p>8 Find this missing value for the divisor in this long division</p> $\begin{array}{r} \overline{) 23} \\ \underline{21} \\ 2 \end{array}$	<p>A</p> <p>6</p>	<p>B</p> <p>8</p>	<p>C</p> <p>11</p>
