

Digit Solving - Long Division - Two Steps, No Remainder - Identify Dividend

1 Find this missing value for the dividend in this long division

$$\begin{array}{r} 64 \\ 4 \overline{)???} \\ \underline{24} \\ 16 \\ \underline{16} \\ 0 \end{array}$$

A	B	C
256	106	481
D	E	F
281	206	406

2 Find this missing value for the dividend in this long division

$$\begin{array}{r} 45 \\ 9 \overline{)???} \\ \underline{36} \\ 45 \\ \underline{45} \\ 0 \end{array}$$

A	B	C
445	125	685
D	E	F
405	645	365

3 Find this missing value for the dividend in this long division

$$\begin{array}{r} 39 \\ 9 \overline{)???} \\ \underline{27} \\ 81 \\ \underline{81} \\ 0 \end{array}$$

A	B	C
141	351	456
D	E	F
106	526	666

4 Find this missing value for the dividend in this long division

$$\begin{array}{r} 98 \\ 5 \overline{)???} \\ \underline{45} \\ 40 \\ \underline{40} \\ 0 \end{array}$$

A	B	C
539	833	0
D	E	F
392	490	196

5 Find this missing value for the dividend in this long division

$$\begin{array}{r} 72 \\ 9 \overline{)???} \\ \underline{63} \\ 18 \\ \underline{18} \\ 0 \end{array}$$

A	B	C
200	648	584
D	E	F
1224	712	8

6 Find this missing value for the dividend in this long division

$$\begin{array}{r} 78 \\ 2 \overline{)???} \\ \underline{14} \\ 16 \\ \underline{16} \\ 0 \end{array}$$

A	B	C
96	156	186
D	E	F
201	111	51

7 Find this missing value for the dividend in this long division

$$\begin{array}{r} 26 \\ 9 \overline{)???} \\ \underline{18} \\ 54 \\ \underline{54} \\ 0 \end{array}$$

A	B	C
441	4	303
D	E	F
165	349	234

8 Find this missing value for the dividend in this long division

$$\begin{array}{r} 46 \\ 9 \overline{)???} \\ \underline{36} \\ 54 \\ \underline{54} \\ 0 \end{array}$$

A	B	C
45	373	168
D	E	F
86	414	4
