

Digit Solving - Ones Digit in Multiplication Product - Is It Possible

1

$$\begin{array}{r} AB \\ \times C6 \\ \hline EF G? \end{array}$$

Each letter is a digit (0-9). Is the digit '1' possible in the box with a question mark?

A

Yes

B

No

2

$$\begin{array}{r} A0 \\ \times CD \\ \hline EF G? \end{array}$$

Each letter is a digit (0-9). Is the digit '0' possible in the box with a question mark?

A

Yes

B

No

3

$$\begin{array}{r} AB4 \\ \times DE \\ \hline F G H? \end{array}$$

Each letter is a digit (0-9). Is the digit '3' possible in the box with a question mark?

A

Yes

B

No

4

$$\begin{array}{r} AB \\ \times C5 \\ \hline EF G? \end{array}$$

Each letter is a digit (0-9). Is the digit '0' possible in the box with a question mark?

A

Yes

B

No

5

$$\begin{array}{r} AB1 \\ \times DE \\ \hline F G H? \end{array}$$

Each letter is a digit (0-9). Is the digit '8' possible in the box with a question mark?

A

Yes

B

No

6

$$\begin{array}{r} AB \\ \times CD1 \\ \hline F G H? \end{array}$$

Each letter is a digit (0-9). Is the digit '8' possible in the box with a question mark?

A

Yes

B

No

7

$$\begin{array}{r} A1 \\ \times CDE \\ \hline F G H? \end{array}$$

Each letter is a digit (0-9). Is the digit '8' possible in the box with a question mark?

A

Yes

B

No

8

$$\begin{array}{r} A1 \\ \times CD \\ \hline EF G? \end{array}$$

Each letter is a digit (0-9). Is the digit '5' possible in the box with a question mark?

A

Yes

B

No
