

## Division by Skip Counting - Problem to Long Division Expression

1

16 wheels

What division shows how many bikes would have 16 wheels total?

A	B
$16 \overline{)2}$	$2 \overline{)16}$

2

18 wheels

What division shows how many bikes would have 18 wheels total?

A	B
$2 \overline{)18}$	$18 \overline{)2}$

3

10 wheels

What division shows how many bikes would have 10 wheels total?

A	B
$10 \overline{)2}$	$2 \overline{)10}$

4

10 wheels

What division shows how many motorbikes would have 10 wheels total?

A	B
$10 \overline{)2}$	$2 \overline{)10}$

5

6 wheels

What division shows how many motorbikes would have 6 wheels total?

A	B
$2 \overline{)6}$	$6 \overline{)2}$

6

12 wheels

What division shows how many motorbikes would have 12 wheels total?

A	B
$12 \overline{)2}$	$2 \overline{)12}$

7

18 wheels

What division shows how many motorbikes would have 18 wheels total?

A	B
$18 \overline{)2}$	$2 \overline{)18}$

8

8 wheels

What division shows how many motorbikes would have 8 wheels total?

A	B
$8 \overline{)2}$	$2 \overline{)8}$
