Division by Skip Counting - Problem to Long Division Expression

1

24 leaves

What division shows how many clovers would have 24 leaves total?
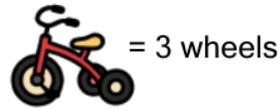

= 3 leaves

A $3\overline{)24}$ B $24\overline{)3}$

2

18 wheels

What division shows how many tricycles would have 18 wheels total?

= 3 wheels

A $3\overline{)18}$ B $18\overline{)3}$

3

15 leaves

What division shows how many clovers would have 15 leaves total?
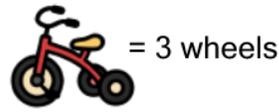

= 3 leaves

A $3\overline{)15}$ B $15\overline{)3}$

4

9 wheels

What division shows how many tricycles would have 9 wheels total?

= 3 wheels

A $9\overline{)3}$ B $3\overline{)9}$

5

12 leaves

What division shows how many clovers would have 12 leaves total?
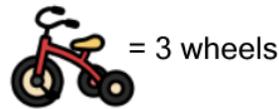

= 3 leaves

A $3\overline{)12}$ B $12\overline{)3}$

6

24 wheels

What division shows how many tricycles would have 24 wheels total?

= 3 wheels

A $24\overline{)3}$ B $3\overline{)24}$

7

21 leaves

What division shows how many clovers would have 21 leaves total?
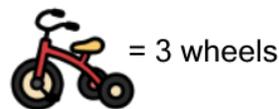

= 3 leaves

A $3\overline{)21}$ B $21\overline{)3}$

8

6 wheels

What division shows how many tricycles would have 6 wheels total?

= 3 wheels

A $3\overline{)6}$ B $6\overline{)3}$
