

Factoring - Venn Diagrams - 2 Numbers - Populated Venn to GCF

1 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
16	1	2
D	E	F
6	3	4

2 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
16	27	26
D	E	F
5	28	1

3 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
7	6	1
D	E	F
2	9	11

4 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
3	8	7
D	E	F
16	1	2

5 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
7	46	45
D	E	F
2	1	32

6 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
1	8	2
D	E	F
3	13	6

7 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
8	5	10
D	E	F
1	4	3

8 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
9	14	5
D	E	F
3	1	2
