

Factoring - Venn Diagrams - 2 Numbers - Populated Venn to GCF

1 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
44	8	11
D	E	F
3	19	1

2 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
1	5	9
D	E	F
3	7	2

3 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
22	5	10
D	E	F
12	42	6

4 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
2	15	32
D	E	F
4	28	1

5 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
18	6	1
D	E	F
2	3	4

6 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
3	18	27
D	E	F
9	46	8

7 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
6	4	1
D	E	F
8	2	14

8 Find the GCF of these numbers by multiplying the shared factors in the center

A	B	C
4	1	31
D	E	F
33	6	7
