

## Fraction Comparison - Basic - No Changed Denominator

<b>1</b> Compare these fractions and choose the right equality operator $\frac{1}{4} \bigcirc \frac{2}{4}$ <, >, or =?	A <	B >	C =
<b>2</b> Compare these fractions and choose the right equality operator $\frac{1}{3} \bigcirc \frac{2}{3}$ <, >, or =?	A <	B >	C =
<b>3</b> Compare these fractions and choose the right equality operator $\frac{2}{5} \bigcirc \frac{1}{5}$ <, >, or =?	A <	B >	C =
<b>4</b> Compare these fractions and choose the right equality operator $\frac{1}{5} \bigcirc \frac{2}{5}$ <, >, or =?	A <	B >	C =
<b>5</b> Compare these fractions and choose the right equality operator $\frac{1}{5} \bigcirc \frac{3}{5}$ <, >, or =?	A <	B >	C =
<b>6</b> Compare these fractions and choose the right equality operator $\frac{2}{3} \bigcirc \frac{1}{3}$ <, >, or =?	A <	B >	C =
<b>7</b> Compare these fractions and choose the right equality operator $\frac{1}{5} \bigcirc \frac{4}{5}$ <, >, or =?	A <	B >	C =
<b>8</b> Compare these fractions and choose the right equality operator $\frac{3}{4} \bigcirc \frac{1}{4}$ <, >, or =?	A <	B >	C =
