

Fraction to Decimals - To Hundredths Decimal (with Placeholder) - Concept

Intro

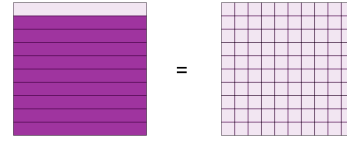

1 What decimal in hundredths is equivalent to $6/10$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.51 | 0.60 | 0.95 | 0.87 |

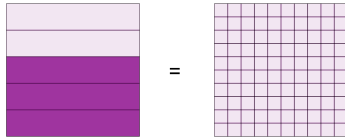

2 What decimal in hundredths is equivalent to $9/10$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.62 | 0.90 | 0.78 | 0.29 |

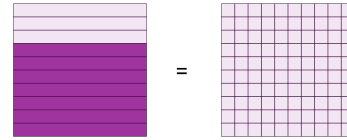

3 What decimal in hundredths is equivalent to $3/5$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.90 | 0.27 | 0.60 | 0.16 |

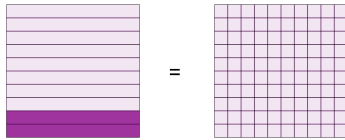

4 What decimal in hundredths is equivalent to $7/10$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.27 | 0.70 | 0.88 | 0.25 |

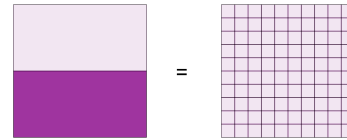

5 What decimal in hundredths is equivalent to $2/10$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.93 | 0.29 | 0.32 | 0.20 |

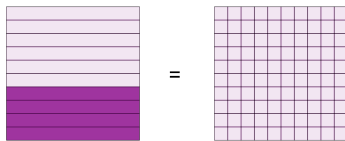

6 What decimal in hundredths is equivalent to $1/2$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.03 | 0.66 | 0.50 | 0.04 |

7 What decimal in hundredths is equivalent to $4/10$?

=

- | A | B | C | D |
|------|------|------|------|
| 0.44 | 0.52 | 0.40 | 0.99 |
