# Fractions - Equivalent, Find Denominator - 1 digit

1 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{2} = \frac{5}{?}$$

A	B	C
12	10	9
D	E	F
5	6	7

2 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{2} = \frac{4}{?}$$

A	B	C
5	12	8
D	E	F
4	10	6

3 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{3} = \frac{5}{?}$$

A	B	C
19	15	16
D	E	F
10	14	12

4 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{4} = \frac{4}{?}$$

A	B	C
18	19	20
D	E	F
15	11	16

5 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{6} = \frac{5}{?}$$

A	B	C
31	33	32
D	E	F
30	28	27

6 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{5} = \frac{5}{?}$$

A	B	C
25	22	28
D	E	F
29	24	23

7 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{4} = \frac{5}{?}$$

A	B	C
21	23	20
D	E	F
19	15	24

8 Complete the equivalent fraction by finding the missing denominator

$$\frac{1}{3} = \frac{4}{?}$$

A	B	C
12	11	10
D	E	F
16	9	7
