

## Fractions - Equivalent, Find Denominator - 1 digit

1 Complete the equivalent fraction by finding the missing denominator

$$\frac{4}{5} = \frac{16}{?}$$

A	B	C
24	16	22
D	E	F
19	17	20

2 Complete the equivalent fraction by finding the missing denominator

$$\frac{4}{6} = \frac{16}{?}$$

A	B	C
19	23	25
D	E	F
20	24	26

3 Complete the equivalent fraction by finding the missing denominator

$$\frac{3}{4} = \frac{9}{?}$$

A	B	C
13	14	12
D	E	F
16	7	9

4 Complete the equivalent fraction by finding the missing denominator

$$\frac{2}{3} = \frac{8}{?}$$

A	B	C
11	7	14
D	E	F
12	13	8

5 Complete the equivalent fraction by finding the missing denominator

$$\frac{3}{5} = \frac{9}{?}$$

A	B	C
15	13	12
D	E	F
14	19	18

6 Complete the equivalent fraction by finding the missing denominator

$$\frac{2}{6} = \frac{4}{?}$$

A	B	C
9	10	14
D	E	F
15	12	7

7 Complete the equivalent fraction by finding the missing denominator

$$\frac{2}{5} = \frac{8}{?}$$

A	B	C
15	16	23
D	E	F
22	20	24

8 Complete the equivalent fraction by finding the missing denominator

$$\frac{3}{5} = \frac{12}{?}$$

A	B	C
20	16	24
D	E	F
23	21	15
