

Fractions - Equivalent, Find Denominator - 1 digit with Equation Graphic

1 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{3} = \frac{4}{?}$

(x4)

A	B	C
8	15	12
D	E	F
14	13	11

2 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{5} = \frac{5}{?}$

(x5)

A	B	C
20	28	26
D	E	F
29	25	27

3 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{4} = \frac{5}{?}$

(x5)

A	B	C
17	16	24
D	E	F
18	20	21

4 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{3} = \frac{5}{?}$

(x5)

A	B	C
10	18	11
D	E	F
13	16	15

5 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{6} = \frac{4}{?}$

(x4)

A	B	C
28	25	26
D	E	F
24	23	22

6 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{2} = \frac{5}{?}$

(x5)

A	B	C
9	13	7
D	E	F
5	10	6

7 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{5} = \frac{4}{?}$

(x4)

A	B	C
23	21	20
D	E	F
19	22	16

8 Complete the equivalent fraction by finding the missing denominator

$\frac{1}{6} = \frac{5}{?}$

(x5)

A	B	C
29	31	30
D	E	F
26	32	25
