

## Slope of a Line from Coordinates of Points

**1** Find the slope of the line between the two (x, y) points

(2, 4) and (10,5)

A	B	C	D	E	F
-0.08	8	0.13	0.03	0.35	0.23

**2** Find the slope of the line between the two (x, y) points

(6, 9) and (10,10)

A	B	C	D	E	F
0.7	0.75	0.25	0.1	4	-0.2

**3** Find the slope of the line between the two (x, y) points

(3, 3) and (10,6)

A	B	C	D	E	F
0.43	-1	-0.75	0.17	2.5	2.33

**4** Find the slope of the line between the two (x, y) points

(0, 4) and (4,8)

A	B	C	D	E	F
2.4	-0.4	-0.25	1.2	1	2.8

**5** Find the slope of the line between the two (x, y) points

(1, 4) and (5,6)

A	B	C	D	E	F
1.3	0.5	-0.5	1.1	-0.1	0.7

**6** Find the slope of the line between the two (x, y) points

(0, 1) and (3,7)

A	B	C	D	E	F
1.75	-2.25	2	5.2	2.4	0.5

**7** Find the slope of the line between the two (x, y) points

(3, 3) and (9,6)

A	B	C	D	E	F
0.5	0	1.2	1.5	2	-0.25

**8** Find the slope of the line between the two (x, y) points

(3, 2) and (6,6)

A	B	C	D	E	F
-0.8	-1.25	1.33	-0.25	0.75	1.07
