

Number Line - Subtraction Negative Integers, Equation to Movement Image

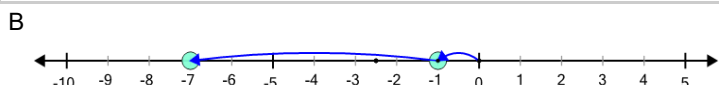

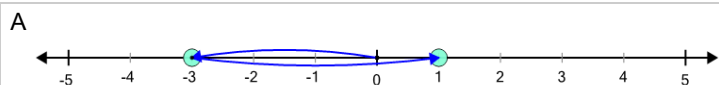

1 Which number line shows this subtraction equation?
 $(-1) - 5 = -6$

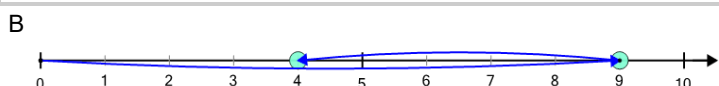

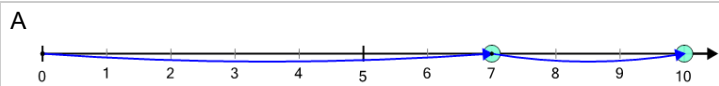

3 Which number line shows this subtraction equation?
 $3 - (-9) = 12$

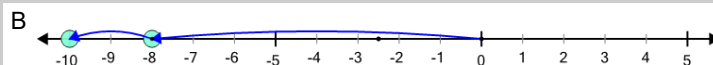

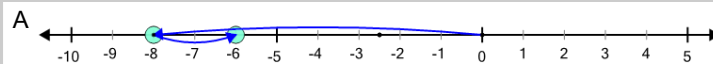

5 Which number line shows this subtraction equation?
 $(-3) - (-4) = 1$

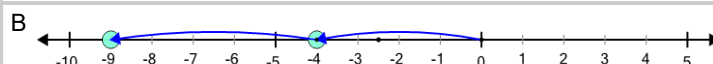

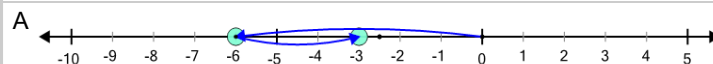

7 Which number line shows this subtraction equation?
 $7 - (-3) = 10$

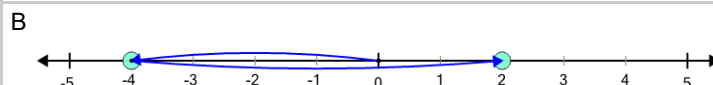

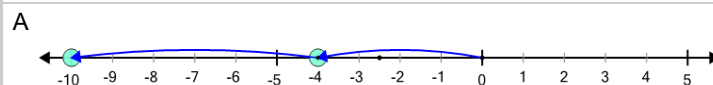

2 Which number line shows this subtraction equation?
 $(-8) - (-2) = -6$

4 Which number line shows this subtraction equation?
 $(-6) - (-3) = -3$

6 Which number line shows this subtraction equation?
 $(-4) - 6 = -10$

8 Which number line shows this subtraction equation?
 $3 - (-10) = 13$
