

## Number Types (Complex) - Number to Diagram Section - Real, Imaginary, and Complex Numbers

1

$$0.\overline{5}$$

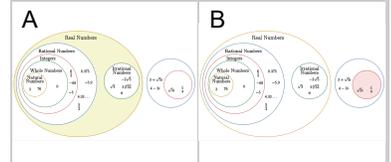

Select the narrowest grouping that matches this number type

2

$$\frac{\sqrt{13}i}{3}$$

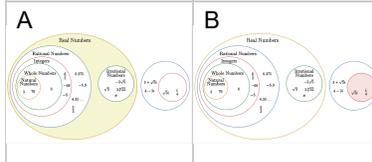

Select the narrowest grouping that matches this number type

3

$$\frac{\sqrt{79}i}{2}$$

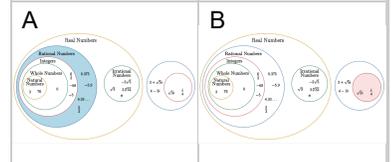

Select the narrowest grouping that matches this number type

4

$$-3.\overline{9}$$

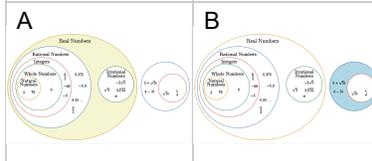

Select the narrowest grouping that matches this number type

5

$$4 + \frac{\sqrt{19}i}{2}$$

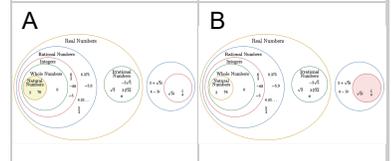

Select the narrowest grouping that matches this number type

6

$$\frac{\sqrt{37}i}{6}$$

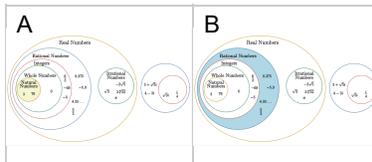

Select the narrowest grouping that matches this number type

7

$$-3.\overline{5}$$

Select the narrowest grouping that matches this number type

8

$$\frac{20}{5}$$

Select the narrowest grouping that matches this number type
