

Order of Operations - Ordering From Words - With Parentheses

<p>1</p> <p>Which operation should you do first in a math equation?</p> <p>Divide or Brackets</p> <table border="1"> <tr> <td>A</td> <td>Brackets</td> <td>B</td> <td>Left-To-Right</td> </tr> <tr> <td>C</td> <td>Divide</td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </table>	A	Brackets	B	Left-To-Right	C	Divide							<p>2</p> <p>Which operation should you do first in a math equation?</p> <p>Brackets or Subtract</p> <table border="1"> <tr> <td>A</td> <td>Left-To-Right</td> </tr> <tr> <td>B</td> <td>Subtract</td> </tr> <tr> <td>C</td> <td>Brackets</td> </tr> </table>	A	Left-To-Right	B	Subtract	C	Brackets						
A	Brackets	B	Left-To-Right																						
C	Divide																								
A	Left-To-Right																								
B	Subtract																								
C	Brackets																								
<p>3</p> <p>Which operation should you do first in a math equation?</p> <p>Multiply or Brackets</p> <table border="1"> <tr> <td>A</td> <td>Left-To-Right</td> </tr> <tr> <td>B</td> <td>Brackets</td> </tr> <tr> <td>C</td> <td>Multiply</td> </tr> </table>	A	Left-To-Right	B	Brackets	C	Multiply	<p>4</p> <p>Which operation should you do first in a math equation?</p> <p>Brackets or Divide</p> <table border="1"> <tr> <td>A</td> <td>Left-To-Right</td> <td>B</td> <td>Brackets</td> </tr> <tr> <td>C</td> <td>Divide</td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </table>	A	Left-To-Right	B	Brackets	C	Divide												
A	Left-To-Right																								
B	Brackets																								
C	Multiply																								
A	Left-To-Right	B	Brackets																						
C	Divide																								
<p>5</p> <p>Which operation should you do first in a math equation?</p> <p>Subtract or Brackets</p> <table border="1"> <tr> <td>A</td> <td>Brackets</td> </tr> <tr> <td>B</td> <td>Subtract</td> </tr> <tr> <td>C</td> <td>Left-To-Right</td> </tr> </table>	A	Brackets	B	Subtract	C	Left-To-Right	<p>6</p> <p>Which operation should you do first in a math equation?</p> <p>Brackets or Add</p> <table border="1"> <tr> <td>A</td> <td>Left-To-Right</td> <td>B</td> <td>Brackets</td> </tr> <tr> <td>C</td> <td>Add</td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </table>	A	Left-To-Right	B	Brackets	C	Add												
A	Brackets																								
B	Subtract																								
C	Left-To-Right																								
A	Left-To-Right	B	Brackets																						
C	Add																								
<p>7</p> <p>Which operation should you do first in a math equation?</p> <p>Add or Brackets</p> <table border="1"> <tr> <td>A</td> <td>Left-To-Right</td> <td>B</td> <td>Add</td> </tr> <tr> <td>C</td> <td>Brackets</td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </table>	A	Left-To-Right	B	Add	C	Brackets							<p>8</p> <p>Which operation should you do first in a math equation?</p> <p>Add or Multiply</p> <table border="1"> <tr> <td>A</td> <td>Multiply</td> <td>B</td> <td>Left-To-Right</td> </tr> <tr> <td>C</td> <td>Add</td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> </tr> </table>	A	Multiply	B	Left-To-Right	C	Add						
A	Left-To-Right	B	Add																						
C	Brackets																								
A	Multiply	B	Left-To-Right																						
C	Add
