

Patterning - Concept Intro - Rule to Type

1 What type of pattern does this describe?	Start at 19 and subtract 4 for each term	2 What type of pattern does this describe?	Start at 3 and add 2 for each term
A Fibonacci	B Decreasing (Arithmetic)	A Quadratic	B Increasing (Arithmetic)
3 What type of pattern does this describe?	Find that 3, 8 repeats and repeat those numbers	4 What type of pattern does this describe?	Start at 17 and subtract 4 for each term
A Repeating	B Quadratic	A Decreasing (Arithmetic)	B Fibonacci
5 What type of pattern does this describe?	Find that 4, 1 repeats and repeat those numbers	6 What type of pattern does this describe?	Find that 2, 9 repeats and repeat those numbers
A Decreasing (Arithmetic)	B Repeating	A Geometric	B Repeating
7 What type of pattern does this describe?	Start at 18 and subtract 4 for each term	8 What type of pattern does this describe?	Start at 15 and subtract 3 for each term
A Geometric	B Decreasing (Arithmetic)	A Geometric	B Decreasing (Arithmetic)
