

Patterning - Concept Intro - Type to Rule

1 Which rule describes this type of pattern? Quadratic		2 Which rule describes this type of pattern? Place Value	
A Start with 2 x 2. The next term is 3 x 3, and so on.	B Start at 17 and subtract 2 for each term	A Start at 2 and multiply by 10 for each term	B Find that 8, 1 repeats and repeat those numbers
3 Which rule describes this type of pattern? Geometric		4 Which rule describes this type of pattern? Decreasing (Arithmetic)	
A Start with 1 and 2. Add the prior two terms for each subsequent term	B Start at 1 and multiply by 2 for each term	A Start at 13 and subtract 3 for each term	B Start with 1 and 2. Add the prior two terms for each subsequent term
5 Which rule describes this type of pattern? Fibonacci		6 Which rule describes this type of pattern? Repeating	
A Find that 8, 7 repeats and repeat those numbers	B Start with 2 and 2. Add the prior two terms for each subsequent term	A Start at 1 and multiply by 1 for each term	B Find that 6, 8 repeats and repeat those numbers
7 Which rule describes this type of pattern? Increasing (Arithmetic)			
A Start at 1 and add 3 for each term	B Find that 2, 1 repeats and repeat those numbers
