

Perimeter of a Simple Shape Formula - Formula to Shape Name

1

What shape's perimeter would this formula calculate?

$2 \times (\text{length} + \text{width})$

A	Square	B	Triangle
C	Rectangle		

2

What shape's perimeter would this formula calculate?

$\text{side A} + \text{side B} + \text{side C}$

A	Rectangle	B	Square
C	Triangle		

3

What shape's perimeter would this formula calculate?

$4 \times \text{side}$

A	B
Triangle	Square
