

Quadratic Discriminants - Greater/Lesser than Zero to Count of Roots

<p>1 What type of roots would a quadratic function with this discriminant have?</p> <p>$\Delta < 0$</p>	<p>A 2 complex roots</p>	<p>2 What type of roots would a quadratic function with this discriminant have?</p> <p>$\Delta = 0$</p>	<p>A 2 complex roots</p>
	<p>B 1 real root</p>		<p>B 1 real root</p>
	<p>C 2 real roots</p>		<p>C 2 real roots</p>
<p>3 What type of roots would a quadratic function with this discriminant have?</p> <p>$\Delta > 0$</p>	<p>A 2 complex roots</p>		
	<p>B 1 real root</p>		
	<p>C 2 real roots</p>
