Probability Union, Intersection, Complement - Description to Name

1

Either A or B happening

Select the name of the probability operation being described

A	A conditional on B
B	A intersect B
C	Complement of A
D	A union B

2

Event A not happening

Select the name of the probability operation being described

A	A conditional on B
B	A intersect B
C	Complement of A
D	A union B

3

Both A and B happening

Select the name of the probability operation being described

A	A union B
B	A conditional on B
C	Complement of A
D	A intersect B
