

Pythagoras in Squares - Diagonal Hypotenuse to Area Decimal

1

Area = ?

Find the area of the square, given a diagonal of length 15

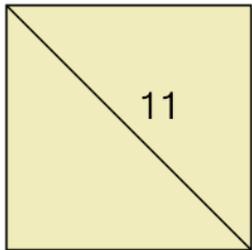

A	B
67.5	112.5

2

Area = ?

Find the area of the square, given a diagonal of length 10

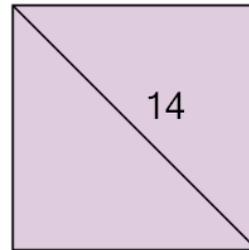

A	B
50	30

3

Area = ?

Find the area of the square, given a diagonal of length 11

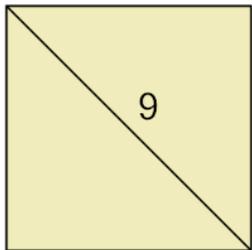

A	B
54.45	60.5

4

Area = ?

Find the area of the square, given a diagonal of length 14

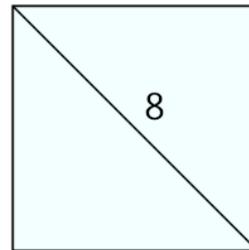

A	B
98	117.6

5

Area = ?

Find the area of the square, given a diagonal of length 9

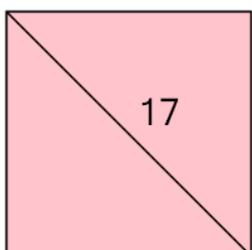

A	B
40.5	48.6

6

Area = ?

Find the area of the square, given a diagonal of length 8

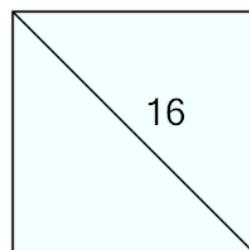

A	B
25.6	32

7

Area = ?

Find the area of the square, given a diagonal of length 17

A	B
144.5	173.4

8

Area = ?

Find the area of the square, given a diagonal of length 16

A	B
128	76.8
