

Scientific Notation - Scientific Notation to Units - Exact Digits

1 Convert this scientific notation number to units

4.00×10^0 meters

- | | |
|-----------------|----------------|
| A 4 kilometers | B 4 megameters |
| C 4 centimeters | D 4 meters |
| E 4 micrometers | F 4 nanometers |

2 Convert this scientific notation number to units

3.00×10^{-2} meters

- | | |
|----------------|-----------------|
| A 3 picometers | B 3 micrometers |
| C 3 gigameters | D 3 centimeters |
| E 3 meters | F 3 kilometers |

3 Convert this scientific notation number to units

2.00×10^6 meters

- | | |
|-----------------|----------------|
| A 2 meters | B 2 terameters |
| C 2 decimeters | D 2 nanometers |
| E 2 centimeters | F 2 megameters |

4 Convert this scientific notation number to units

4.00×10^{-1} meters

- | | |
|-----------------|----------------|
| A 4 millimeters | B 4 kilometers |
| C 4 centimeters | D 4 decimeters |
| E 4 micrometers | F 4 meters |

5 Convert this scientific notation number to units

2.00×10^6 seconds

- | | |
|------------------|-----------------|
| A 2 kiloseconds | B 2 teraseconds |
| C 2 milliseconds | D 2 seconds |
| E 2 megaseconds | F 2 gigaseconds |

6 Convert this scientific notation number to units

9.00×10^{-1} meters

- | | |
|-----------------|-----------------|
| A 9 decimeters | B 9 centimeters |
| C 9 megameters | D 9 gigameters |
| E 9 millimeters | F 9 nanometers |

7 Convert this scientific notation number to units

1.00×10^{-6} grams

- | | |
|----------------|----------------|
| A 1 micrograms | B 1 milligrams |
| C 1 grams | D 1 centigrams |
| E 1 kilograms | F 1 picograms |

8 Convert this scientific notation number to units

3.00×10^3 grams

- | | |
|----------------|----------------|
| A 3 kilograms | B 3 centigrams |
| C 3 megagrams | D 3 grams |
| E 3 micrograms | F 3 gigagrams |
