

Parts of a Circle (Advanced) - First Time

1

In geometry a portion of the outer edge of the circle is called what?

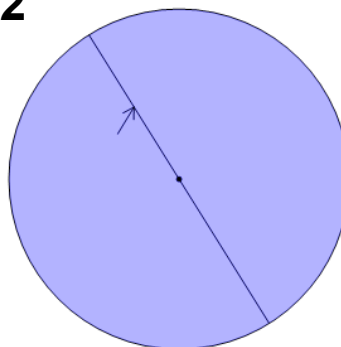

A

arc

B

alternative

2

In geometry a line from edge to edge that goes through the center is called what?

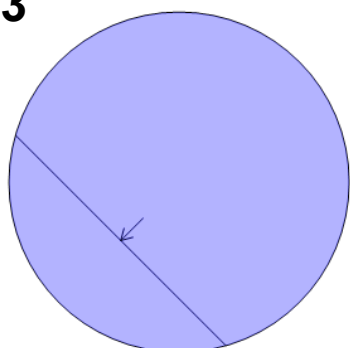

A

drafty

B

diameter

3

In geometry a line from edge to edge that does not go through the center is called what?

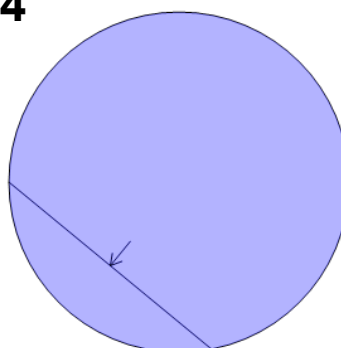

A

celestial

B

chord

4

In geometry a line from edge to edge that does not go through the center is called what?

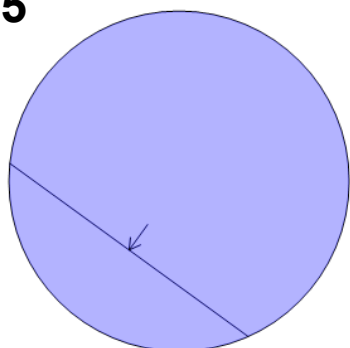

A

chord

B

caliper

5

In geometry a line from edge to edge that does not go through the center is called what?

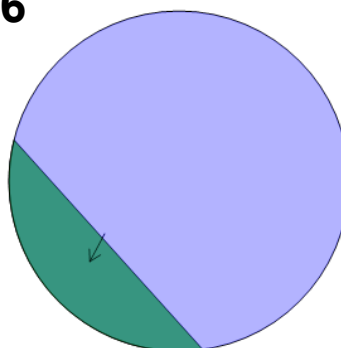

A

carotid

B

chord

6

In geometry the shape between a chord and the outer edge of the circle is called what?

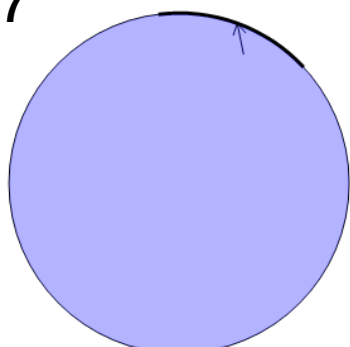

A

segment

B

sophomore

7

In geometry a portion of the outer edge of the circle is called what?

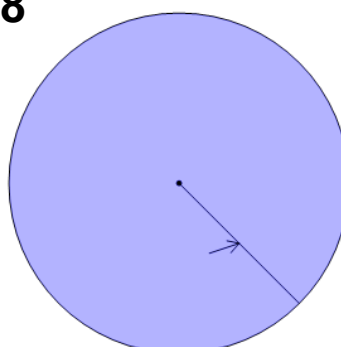

A

arc

B

abacus

8

In geometry a line from the center to the edge is called what?

A

radius

B

radical
