Slope - Perpendicular as Negative Inverse - Integer to Decimal (as Perpendicular)

1 What slope would be perpendicular to a slope of 5?

A	B
m=-0.2	m=0.2
C	D
m=-5	m=-0.1

m=5

2 What slope would be perpendicular to a slope of -1?

A	B	C
m=-1	m=0.5	m=1

m=-1

3 What slope would be perpendicular to a slope of -3?

A	B
m=3	m=0.17
C	D
m=0.33	m=-0.33

m=-3

4 What slope would be perpendicular to a slope of 1?

A	B
m=-1	m=1
C	
m=-0.5	

m=1

5 What slope would be perpendicular to a slope of 3?

A	B
m=-0.33	m=0.33
C	D
m=-3	m=-0.17

m=3

6 What slope would be perpendicular to a slope of 2?

A	B
m=-0.5	m=-0.25
C	D
m=-2	m=0.5

m=2

7 What slope would be perpendicular to a slope of -5?

A	B
m=-0.2	m=5
C	D
m=0.1	m=0.2

m=-5

8 What slope would be perpendicular to a slope of 4?

A	B
m=-0.13	m=-0.25
C	D
m=-4	m=0.25

m=4
