

Sums - Series of Integers 1 to N - Equation to Sum

| | | | |
|--|--------------------------|----------|----------|
| 1 What is the sum of the integers from 1 to 15 based on this equation? $\frac{15(15 + 1)}{2}$ | A 119 D 105 | B 136 | C 120 |
| 2 What is the sum of the integers from 1 to 10 based on this equation? $\frac{10(10 + 1)}{2}$ | A 55 D 45 | B 54 | C 66 |
| 3 What is the sum of the integers from 1 to 8 based on this equation? $\frac{8(8 + 1)}{2}$ | A 28 D 36 | B 45 | C 35 |
| 4 What is the sum of the integers from 1 to 11 based on this equation? $\frac{11(11 + 1)}{2}$ | A 66 D 78 | B 65 | C 55 |
