

Sums - Series of Integers 1 to N - Equation to Sum

1 What is the sum of the integers from 1 to 9 based on this equation? $\frac{9(9 + 1)}{2}$	A 44 D 36	B 45	C 55	2 What is the sum of the integers from 1 to 16 based on this equation? $\frac{16(16 + 1)}{2}$	A 120 D 135	B 153	C 136
3 What is the sum of the integers from 1 to 21 based on this equation? $\frac{21(21 + 1)}{2}$	A 210 D 230	B 253	C 231	4 What is the sum of the integers from 1 to 24 based on this equation? $\frac{24(24 + 1)}{2}$	A 300 D 325	B 276	C 299
5 What is the sum of the integers from 1 to 25 based on this equation? $\frac{25(25 + 1)}{2}$	A 351 D 324	B 325	C 300	6 What is the sum of the integers from 1 to 17 based on this equation? $\frac{17(17 + 1)}{2}$	A 171 D 136	B 153	C 152
7 What is the sum of the integers from 1 to 23 based on this equation? $\frac{23(23 + 1)}{2}$	A 300 D 275	B 253	C 276	8 What is the sum of the integers from 1 to 19 based on this equation? $\frac{19(19 + 1)}{2}$	A 190 D 171	B 210	C 189
