

Trigonometry - Labeling of Sides - First Time

1 In trigonometry, what's the fancy name for the side labeled 'w' that across from the right angle?

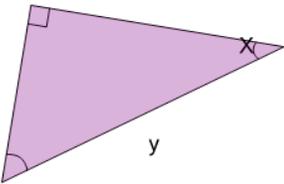

A	Hypotenuse	B	Hypocrisy
C	Holstered	D	Hardened

2 In trigonometry, what's the fancy name for the side labeled 't' that is the nearest leg to angle 'X'?

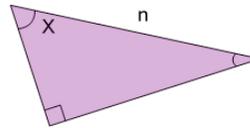

A	Amethyst	B	Adjacent
C	Acropolis	D	Alternative

3 In trigonometry, what's the fancy name for the side labeled 'y' that across from the right angle?

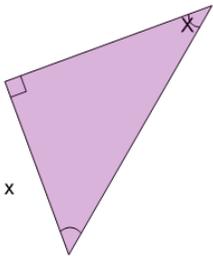

A	Hypotenuse
B	Horizontal
C	Halberd
D	Hippopotamus

4 In trigonometry, what's the fancy name for the side labeled 'n' that across from the right angle?

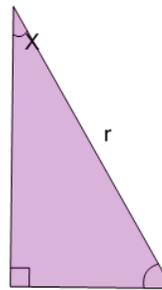

A	Horizontal	B	Halberd
C	Hypotenuse	D	Hardened

5 In trigonometry, what's the fancy name for the side labeled 'x' that is the farthest leg from angle 'X'?

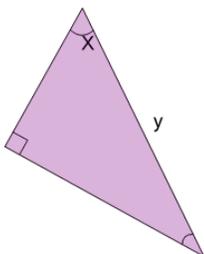

A	Orangutan	B	Opportunity
C	Opposite	D	Orange

6 In trigonometry, what's the fancy name for the side labeled 'r' that across from the right angle?

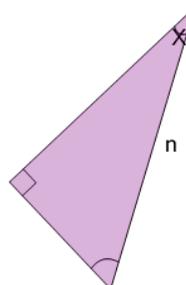

A	Halberd
B	Hypotenuse
C	Hippopotamus
D	Hardened

7 In trigonometry, what's the fancy name for the side labeled 'y' that across from the right angle?

A	Hoisted	B	Holstered
C	Hypotenuse	D	Halberd

8 In trigonometry, what's the fancy name for the side labeled 'n' that across from the right angle?

A	Hoisted
B	Hypotenuse
C	Hippopotamus
D	Horizontal
