

Trigonometry, Unit Circle Ratios (Tan, Sec, Csc, Cot) - To Ratio Name (Degrees)

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\csc(315^\circ)$	$\sin(315^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\sin(135^\circ)$	$\cos(135^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\sec(150^\circ)$	$\sin(150^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\tan(120^\circ)$	$\csc(120^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\cot(315^\circ)$	$\sec(315^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\sin(135^\circ)$	$\csc(135^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\cos(225^\circ)$	$\tan(225^\circ)$

What trigonometry ratio gives the highlighted dimension on the unit circle?

A	B
$\cos(210^\circ)$	$\tan(210^\circ)$
