

Trigonometry, Unit Circle Ratios (Tan, Sec, Csc, Cot) - To Ratio Name (Full Name)

1

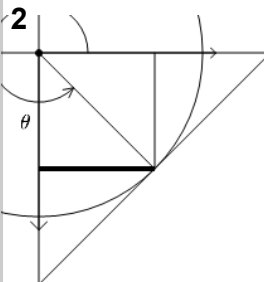

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Cotangent **Secant**

2

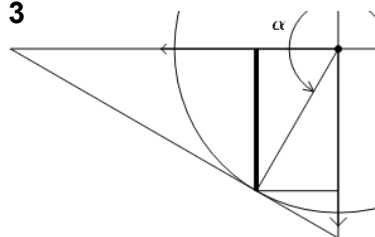

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Cosine Tangent

3

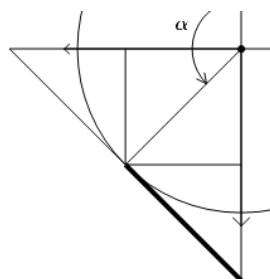

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Cosecant **Sine**

4

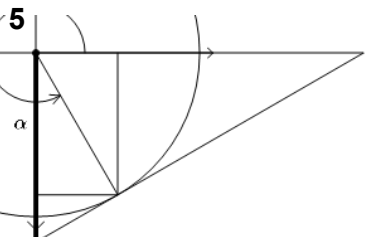

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Cotangent **Cosecant**

5

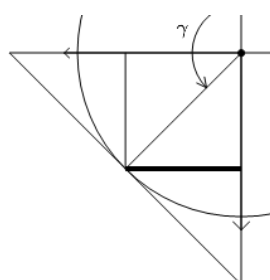

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Tangent Cosecant

6

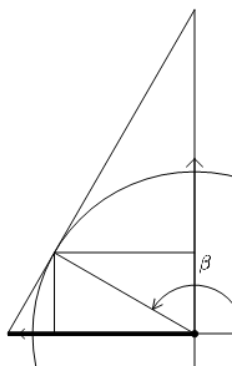

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Cosine Cosecant

7

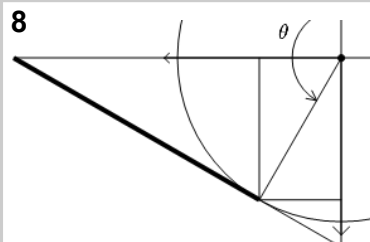

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Cosine Secant

8

What trigonometry ratio gives the highlighted dimension on the unit circle?

A

B

Tangent **Cosine**
