

Volume of a Triangular Prism (Right) - Calculate

1 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 3 and 3. The length of the prism is 4.

A	B	C
15	9	13.5
D	E	F
31.5	18	16.5

2 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 2 and 3. The length of the prism is 4.

A	B	C
12	14	15
D	E	F
9	13	7

3 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 5 and 3. The length of the prism is 5.

A	B	C
23	16	5.5
D	E	F
2	37.5	65

4 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 5 and 4. The length of the prism is 3.

A	B	C
3	30	33
D	E	F
6	45	51

5 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 5 and 4. The length of the prism is 5.

A	B	C
25	60	55
D	E	F
40	65	50

6 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 4 and 2. The length of the prism is 4.

A	B	C
1	16	29.5
D	E	F
4	2.5	7

7 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 4 and 3. The length of the prism is 5.

A	B	C
3	51	9
D	E	F
57	30	18

8 What is the volume of this Triangular Prism?

A 3D diagram of a right triangular prism. The base is a right triangle with legs of length 2 and 2. The length of the prism is 5.

A	B	C
17	10	8
D	E	F
12	3	6
